How to join the game? How to play? Description of the game.

The Auto Puzzle consists of 3 different levels, each of them slightly more complex and faster than the previous. At each level, the player must install 11 parts appearing on the screen as quickly as possible. The number of spare parts and a stopwatch are displayed at the top of the screen.

The name of the spare part, the name of the manufacturer and a special green logo will very briefly appear in various parts of the screen. You install the spare parts by tapping the stated names and the logo. A sound signal and the number of spare parts indicate your success in installing spare parts. The game can become even more interesting when a red symbol appears next to a spare part. That means the spare part cannot be installed. The sound signal is an additional warning of that. Be careful and patient.

The watch is not stopped between the 3 different levels. Once you have installed all the parts on all the levels, your watch will be stopped and your time recorded.
